Land Use Zones

Twelve categories of Land Use Zone provide a pattern for land-use zoning in each type of urban area. These can be generally categorized into residential, commercial and industrial uses. Each Land Use Zone has specifications concerning the uses of buildings which can be constructed in the zone. As described in the City Planning map (see cover page), Land Use Zones are allocated according to a future vision of land-use pattern.

Category I exclusively low-rise residential zone

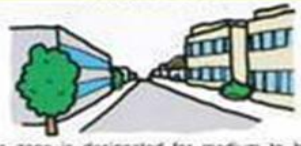

This zone is designated for low rise residential buildings. The permitted buildings include residential buildings which are also used as small shops or offices and elementary/junior high school buildings.

Category II exclusively low-rise residential zone

This zone is mainly designated for low rise residential buildings. In addition to elementary/junior high school buildings, certain types of shop buildings with a floor area of up to 150m² are permitted.

Category I mid/high-rise oriented residential zone

This zone is designated for medium to high residential buildings. In addition to hospital and university buildings, certain types of shop buildings with a floor area of up to 500m² are permitted.

Category II mid/high-rise oriented residential zone

This zone is mainly designated for medium to high rise residential buildings. In addition to hospital and university buildings, the permitted buildings include certain shops and office buildings with a floor area of up to 1,500m² to provide conveniences for the local community.

Category I residential zone

This zone is designated to protect the residential environment. The permitted buildings include shops, offices and hotel buildings with a floor area of up to 3,000m².

Category II residential zone

This zone is designated to mainly protect the residential environment. The permitted buildings include shops, offices and hotel buildings as well as buildings with karaoke box.

Quasi-residential zone

This zone is designated to allow the introduction of vehicle-related facilities along roads while protecting the residential environment in harmony with such facilities.

Neighborhood commercial zone

This zone is designated to provide daily shopping facilities for the neighbourhood residents. In addition to residential and shop buildings, small factory buildings are permitted.

Commercial zone

Banks, cinemas, restaurants and department stores are constructed in this zone. Residential buildings and small factory buildings are also permitted.

Quasi-industrial zone

This zone is mainly occupied by light industrial facilities and service facilities. Almost all types of factories are permitted excepting those which are considered to considerably worsen the environment.

Industrial zone

Any type of factory can be built in this zone. While residential and shop buildings can be constructed, school, hospital and hotel buildings are not permitted.

Exclusively industrial zone

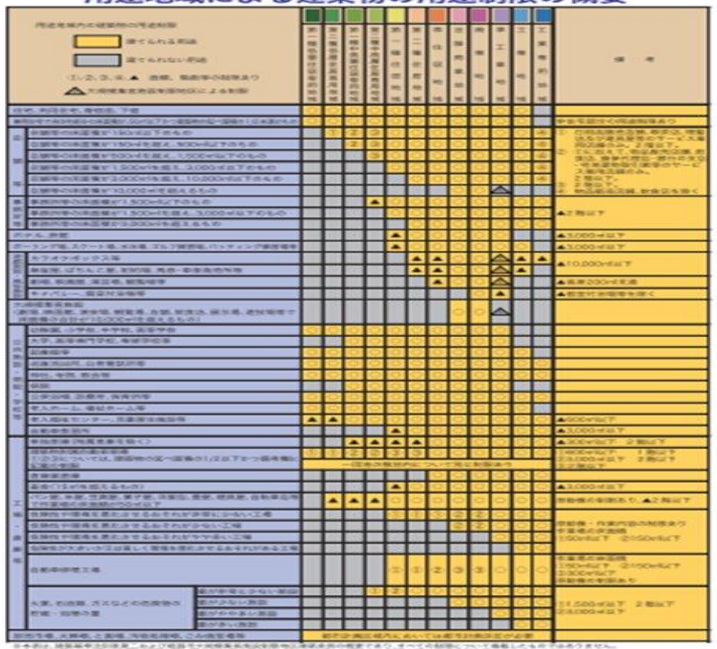

This zone is designated for factories. While all types of factory buildings are permitted, residential, shop, school, hospital and hotel buildings cannot be constructed.

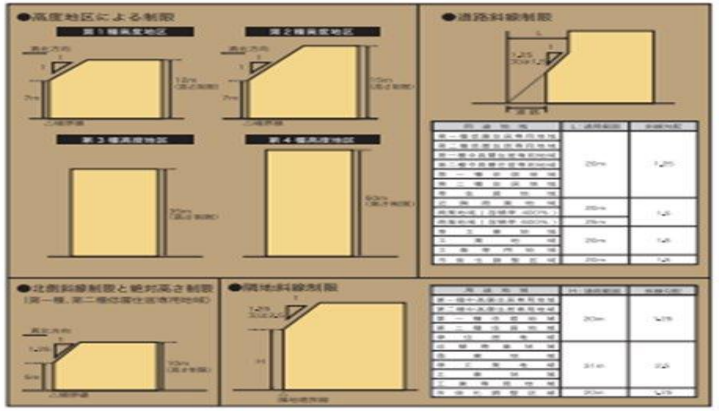

can be built　usually cannot be built

Examples of buildings	Category I exclusively low-rise residential zone	Category II exclusively low-rise residential zone	Category I mid/high-rise oriented residential zone	Category II mid/high-rise oriented residential zone	Category I residential zone	Category II residential zone	Quasi-residential zone	Neighborhood commercial zone	Commercial zone	Quasi-industrial zone	Industrial zone	Exclusively industrial zone	Areas with no land-use zone designation (Urbanization Control Areas are excluded)

発行 2023 年 3 月

都市計画のあらまし

1．都市計画区域

自然的・社会的条件、人口、土地利用、交通量などの現況及び推移を勘案して、一体の都市として総合的に整備・開発及び保全する必要がある区域のことで、この指定により、都市計画法、建築基準法の集団規定（接道義務、建蔽率・容積率制限等）が適用されます。

●中播都市計画区域
姫路市・たつの市・太子町・福崎町の２市２町で構成する都市計画区域の名称です。
合併前の姫路市及び香寺町は区域内、家島町・夢前町・安富町は区域外です。

2．市街化区域及び市街化調整区域

●市街化区域
都市計画区域内ですでに市街地を形成している区域及びおおむね 10 年以内に優先的かつ計画的に市街化を図る区域です。

●市街化調整区域
市街化を抑制すべき区域で開発行為は原則として禁止されています。また、都市間を結ぶ幹線的な道路や流域下水道の幹線、大規模な公園等を除き、市街化を促進するような公共施設の整備は原則として行わない区域です。
姫路市においては、建蔽率60%、容積率 200%を指定しています。

3．用途地域

地域の将来のあるべき土地利用の姿を実現する手段として、建築物の用途（住宅や店舗、事務所、工場といったもの）、容積、形態等を制限し、地域の性格を住・商・工のバランスの中で配置した、土地利用に関する都市計画です。

4．高度地区

用途地域内において、市街地の環境を維持し、又は土地利用の増進を図るため、建築物の高さの最高限度又は最低限度を定める地区です。
姫路市では、良好な中低層住宅地としての環境を保全することを目的に、高さの最高限度（12m・15m）を定めた高度地区を、第一種中高層住居専用地域（容積率 150%・200%）及び第二種中高層住居専用地域（容積率 150%）において指定しています。また、姫路城を眺める景観の保全を目的に、高さの最高限度（35m・50m）を定めた高度地区を、大手前通りに隣接する商業地域（容積率 600%）において指定しています。

5．地区計画

一定の区域における「まちづくりに関する計画」で、住民と市が協力し、一体となってその区域のまちづくりルールを定め、その地域にふさわしいまちづくりを実現し、良好な市街地の形成と保全を図ろうとする制度です。
具体的には、都市計画により建築物の用途、形態などに関する制限や道路・公園等の配置などをきめ細かく定めることによって、建築又は開発行為を規制・誘導していきます。

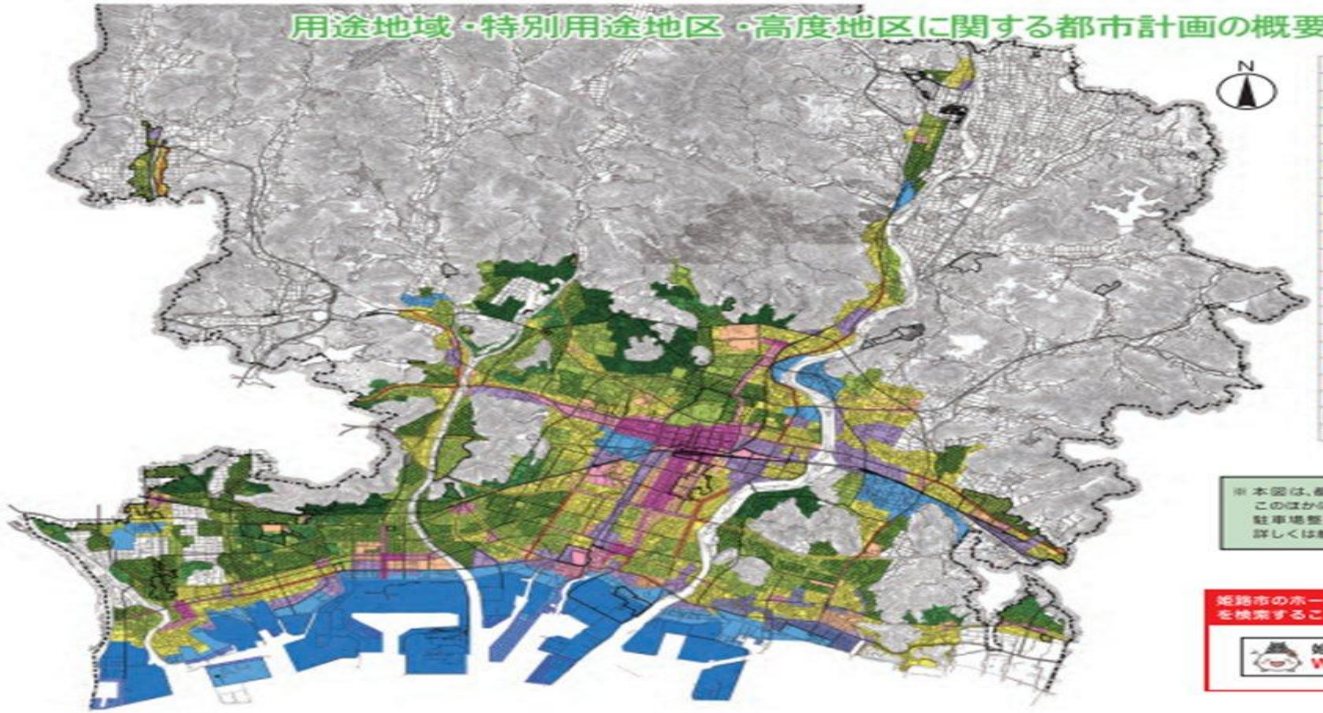

6．特別用途地区

●特別工業地区
特定の工業の利便の増進を図り、又はその利便の増進を図りつつこれと調和した住居等の環境の保護を図るため定める地区です。
姫路市では地場産業の保護育成のために、白浜地域等辺で指定しています。

●大規模集客施設制限地区
姫路市では中心市街地の活性化に向けて、市内全域の準工業地域において、大規模集客施設の立地を規制しています。

大規模集客施設とは、劇場、映画館、演芸場、観覧場、店舗、飲食店、展示場、遊技場等で床面積の合計が 1 万㎡を超えるものです。（劇場、映画館、演芸場、観覧場にあっては、客席の部分に限る）

用途地域・特別用途地区・高度地区に関する都市計画の概要図

※本図は、都市計画の概要を示すもので、このほかに高度利用地区、防火・準防火地域、駐車場整備地区等が指定されています。詳しくは都市計画課で閲覧してください。

姫路市のホームページからでも用途地域等を検索することができます。
